

NOTICE TO THE PUBLIC

RESIDENTS OF THE TOWN OF PEARL RIVER

Notification of (LSL) Lead Service Lines

The Town's water system has NO lead service lines as it was constructed after the Lead Ban of 1988, as verified by the following items:

On August 22, 1995, the Town of Pearl River approved the bids received for the construction of its water distribution system and first public water well.

Construction of these improvements was completed in 1997. In 2004, a 2nd water well was added to the system.
